

## Not For Resale (NFR) Gateway Policy

The NFR unit is intended for demonstration and or lab evaluation purposes. It is designed to offer the Nomadix partner an opportunity to demonstrate to multiple prospective end users.

The following requirements apply;

1. The purchasing reseller **MUST** be an authorized Nomadix Partner Program participant. Membership must be confirmed prior to sale by Nomadix. All NFR shipments require Nomadix approval.
2. Nomadix will monitor number of NFR units per participating reseller, and only up to (2) two NFR units per model platform, per reseller will be approved. Additional quantity is subject to project approval.
3. The NFR gateway will include base user counts and all software modules fully enabled.
4. An annual software license will not be required so long as used for demonstration purposes only.
5. All partner participants will be required to maintain the NFR unit at the latest software release and upgrade and trade in NFR unit to next generation model when available.
6. NFR units may not be sold to an end user site. If found in use at an end user site beyond limited demonstration purposes, the unit will be subject to standard pricing and software license terms to maintain use of the software.

To order please consult with an authorized stocking distributor, or contact Nomadix direct.
